

THE PIER

The Pier, premier award winning waterfront development that comprises spacious one, two and three bedroom living units and penthouses that make the most of their views of the Atlantic coastline.

All units are finished elegantly with an open plan design, a light and spacious feel with selected floor to ceiling windows. The high specification and superior fittings provide sophistication while the architectural design has focused on offering a unique sense of space and privacy.

The design perfectly complements the character of the development, purposely intended to offer sophistication whilst keeping the simplicity and functionality of the units.

ROOM WITH A VIEW

There is something soothing about the sound of ocean waves, the smell of salt water, and the feeling of warm sand beneath your toes. The gentle breath of the ocean calms the mind and invigorates the senses.

It's not the things you take with you that define your journey, it's the experiences you have and the memories you take home.
